

Substance::getEnthalpy

```
graph LR; A[Substance::getEnthalpy] --> B[Substance::getHeatCapacity]; A --> C[Substance::getStandardEnthalpyOfFormation];
```

The diagram illustrates a branching relationship between three methods. A central box on the left, labeled 'Substance::getEnthalpy', has two arrows pointing to the right. The top arrow points to a box labeled 'Substance::getHeatCapacity', and the bottom arrow points to a box labeled 'Substance::getStandardEnthalpyOfFormation'. The 'Substance::getEnthalpy' box is shaded gray, while the other two are white with black borders.
